Statement of Purpose

Applicant: Rahul Verma
Application No.: NMS26-05190

I grew up in Baramati, where my father farms four acres of land and my mother runs a small tailoring business from our home. Physics became my favourite subject when a teacher showed our class how a simple pendulum could measure the acceleration due to gravity.

I am now in the first year of a B.Sc. in Physics at Fergusson College, Pune. The scholarship would let me focus on my studies instead of part-time work, and I hope to pursue research in materials science.

I am grateful for the opportunity to apply and I promise to make good use of the support.

Rahul Verma
